Strategic Engineering Leadership for Growing Teams

Axiomatic is a consultancy dedicated to helping companies transform their engineering operations to deliver predictable, secure, high-velocity results. By partnering with CEOs and leadership teams, we're able to bridge the gap between technical complexity and business strategy to optimize organizational processes to ensure roadmap commitments are met.

We provide independent, business-focused technical expertise to help teams navigate complex technology decisions, consolidations, and transformations. Our specialities include technology strategy, systems integration, and technical due diligence for growth-stage companies and private equity portfolios. All these actionable insights we provide, enable informed decision making at the executive and board level.

Why Axiomatic

- **Independent Perspective:** As an external consultant, we provide unbiased analysis without internal politics or legacy assumptions.
- **Business-First Approach:** We prioritize business outcomes over technical perfection, focusing on solutions that drive ROI and strategic objectives.
- **Executive Communication:** We excel at translating complex technical concepts into actionable business insights for C-suite and board-level decision makers.
- **Editorial Discipline:** Our methodology is rooted in professional journalism — where deadlines are non-negotiable, clarity beats cleverness, and every decision serves the audience.

- Engineering Leadership Development
- Technical Culture Alignment
- Deploy Cycle & Incident Reduction
- Cross-functional Team Synchronization
- Security Audit & SOC 2 Preparation
- Pre-Exit Engineering Operations Preparation

“We've always had a talented team, but legacy processes and high-friction delivery held them back.

Chris was the partner we needed to turn things around.

We've replaced reactive firefighting with a scalable, predictable engine that gives our developers autonomy to ship and our executive team confidence in our ability to execute."

– Matt Smith, VP Engineering, SharpenCX
